

## Acomó® Acoustic Spray System | Product sheet

The Acomó® Acoustic Spray System delivers smart acoustic comfort with speed, seamless aesthetics, and sustainability. Developed and installed by Acomó®'s own spray teams in the Netherlands with years of hands-on experience. This innovative spray-on solution is crafted from 100% recycled cellulose fibers, offering outstanding sound absorption (up to Class A, EN ISO 11654) and fire safety (Class B, EN 13501-1). Its flexible application ensures a flawless finish on nearly any surface, with a wide range of standard and custom colors to suit any design. Acomó® sets a new standard for sustainable acoustic solutions, ideal for offices, hospitality, retail, and educational environments.

### Acoustic Spray Properties

 Sound-absorbing	 Reduces reverberation time	 Fire class B	 For use on almost any surface
